To John Shane Shelbourne Fuels

Dear John

I have been using your fuel catalyst for the past 2 months in my 2007 GM Duramax Diesel and find that it improves the fuel mileage by about 100 kms per tank. Also the truck appears to pull my 38 foot gooseneck trailer better and still retains fuel mileage. I am very pleased.

Also I have been testing the catalyst in the daily business of dynotuning motorcycles and seem to get the same good results.

Thanks for putting me onto such a great product.
